1. Rules of Procedure for Shareholder Meetings (Appendix 1)	54
2. Articles of Incorporation (Appendix 2)	57
3. Ethical Corporate Management Best Practice Principles (Appendix 3)63
4. Number of Shares Held by All Directors and Minimum Number of	f Shares to
be Held (Appendix 4)	66
5. The Impact of Issuance of Bonus Shares on Business Performance	, EPS, and
Shareholder's Return on Investment (Appendix 5)	67

King Yuan Electronics Co., Ltd. 2021 Annual General Meeting Procedure

- I. Call the Meeting to Order
- II. Chairperson Remarks
- **III. Reporting Items**
- **IV. Ratification Items**
- **V. Discussion Items**
- VI. Extraordinary Motions
- VII. Meeting Adjourned

King Yuan Electronics Co., Ltd.

2021 Annual General Meeting Agenda

Time: 9 a.m. on Wednesday, 06/09/2021

Place: 2F., No. 103, Zhongyang Rd., Toufen City, Miaoli County (Conference

Room 205, Grand Royal Hotel)

Chair: Chairperson Chin-Kung Lee

I. Call the Meeting to Order

II. Chairperson Remarks

III. Reporting Items

- 1. The Company's 2020 Business Overview.
- 2. The Audit Committee's Review of the Company's 2020 Financial Report
- 3. The Company's 2020 Distribution of Employee and Director Remuneration.
- 4. The Company's 2020 Endorsements/Guarantees.
- 5. Amendments to the Company's "Ethical Corporate Management Best Practice Principles."

IV. Ratification Items

- 1. The Company's 2020 Business Report and Financial Statement.
- 2. The Company's 2020 Distribution of Earnings.

V. Discussion Items

- 1. Motion of Amendment to the Company's Articles of Incorporation.
- 2. Motion of Distributed Cash Dividend from Capital Reserves.
- 3. Motion of Initial public offering (IPO) of RMB common stock (A shares) of the Company's subsidiary King Long Technology (Suzhou) Ltd. and its application for listing on the Shanghai Stock Exchange/Shenzhen Stock Exchange.

VI. Extraordinary Motions

VII. Meeting Adjourned

Reporting Items

Report No. 1

Proposed by the Board of Directors

Motion: The Company's 2020 Business Overview.

Description: For the 2020 business report, please refer to page 22 (Annex 1).

Proposed by the Board of Directors

Motion: The Audit Committee's review of the Company's 2020 Financial Report. Description:

- The Company's 2020 final accounting reports have been reviewed and certified by accountants and the Audit Committee.
 A review report and audit report have been issued.
- 2. For the audit report prepared by the audit committee, please refer to page 28 (Annex 2).
- 3. For the review report prepared by the accountant please refer to page 34 (Annex 6).

Proposed by the Board of Directors

Motion: The Company's 2020 Distribution of Employee and Director Remuneration.

Description:

- 1. According to Article 19, Paragraph 1 of the Company's Articles of Incorporation: "Subject to the profit sought for the current year, the Company shall allocate 8%–10% of the profit as the remuneration to employees, and no more than 1% thereof as the remuneration to directors. However, profits must first be taken to offset against cumulative losses if any.".
- 2. The profit sought by the Company in 2020 totaled NT\$4,776,473,338 (namely, the earnings before tax less the remuneration to employees and directors). 8% thereof was allocated as the remuneration to employees in cash, i.e. NT\$382,117,867 and 0.8% thereof as the remuneration to directors, i.e. NT\$38,211,786.

Proposed by the Board of Directors

Motion: The Company's 2020 Endorsements/Guarantees.

Description: Aritcle 2-2 of the Articles of Incorporation of the Company stipulates "Due to business needs, the Company must make guarantees".

- 1. To meet the need of Suzhou Zhen Kun Technology Ltd. for operation, the Company made an endorsement/guarantee for it to secure the loan from KGI Bank, HSBC Taiwan and Shanghai Commercial & Savings Bank. As of December 31, 2020, credit facilities granted by the above banks amounted to US\$8,000 thousands, US\$5,000 thousands and US\$5,000 thousands, respectively.
- 2. To meet the need of Suzhou Zhen Kun Technology Ltd. for operation, the Company made an endorsement/guarantee for it to secure the loan from Bank of Taiwan Shanghai Branch, E.Sun Bank Dongguan Branch, and Bank SinoPac (China). As of December 31, 2020, a sum of RMB 30,000 thousands, RMB 30,000 thousands and RMB 50,000 thousands had been drawn on the credit facilities.

Proposed by the Board of Directors

Motion: Amendments to the Company's "Ethical Corporate Management Best Practice Principles."

Description:

- 1. In accordance with the amendment of the Guidelines for the Adoption of "Codes of Ethical Conduct for TWSE/GTSM Listed Companies" announced in the TWSE's Letter of Tai-Zheng-Zhi-Li-Zi No. 10900094681 dated June 3, 2020, and based on the review of the provision related to acceptance on anonymous reporting specified in Article 23 of the "Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies," the Company has amended the provisions of Article 4 and Article 10 of the "Ethical Corporate Management Best Practice Principles."
- 2. Please find the comparison table of provisions before and after the amendments of the Company's "Ethical Corporate Management Best Practice Principles" on page 29 (Annex 3).

Ratification Items

Ratification No. 1

Proposed by the Board of Directors

Motion: The Company's 2020 Business Report and Financial Statement.

Description:

- 1. The Company 's 2020 Business Report and Financial Statement have been resolved in the 6th Meeting of the 14th Session of the Board and were audited by the Audit Committee with an issued audit report.
- 2. For the Business Report and Financial Statement mentioned above, please refer to page 22 (Annex 1) and page 34 (Annex 6).

Ratification No. 2

Proposed by the Board of Directors

Motion: The Company's 2020 Distribution of Earnings.

Description:

- 1. Description: The Company's 2020 distribution of earnings report has been resolved in the 6th Meeting of the 14th Session of the Board and was audited by the Audit Committee with an issued audit report.
- 2. For the distribution of earnings report that was prepared in accordance with the provisions of the Company Act and the Company's Articles of Incorporation, please refer to page 31 (Annex 4).
- 3. If the Company made substantial investment using the undistributed earnings after the distribution of the 2020 earnings, the Company shall apply for reduction of the amounts of undistributed earnings or refund of excess payment under the preferential taxation provisions stipulated in Article 23-3 of the "Statute for Industrial Innovation."

Discussion Items

Discussion No. 1

Proposed by the Board of Directors

Motion: Motion of Amendment to the Company's Articles of Incorporation.

Description:

- 1. In accordance with the amendment of the provision of Article 162 of the Company Act and based on the consideration of MOEA's Letter of Jing-Shou-Shang-Zi No. 10901108100 dated June 24, 2020, and according to the provisions of Article 14-4 and Article 181-2 of the Securities and Exchange Act, the Company plans to amend parts of the provisions of the Articles of Incorporation of the Company.
- 2. For the comparison table of provisions before and after the amendments of the Company's "Articles of Incorporation," please refer to page 32(Annex 5).

Discussion No. 2

Proposed by the Board of Directors

Motion: Motion of Distributed Cash Dividend from Capital Reserves.

Description:

1. The capital reserves derived from the issuance of new shares at a premium are to be allocated NT\$244,549,013 as shareholders' cash dividends. Each share is allocated NT\$0.2. The cash allocated to each shareholder shall be calculated to NT\$1 and rounded off below. The total of fractional cash dividends less than NT\$1 shall be transferred to the Company's Employee Welfare Committee. The distribution yield for shareholders is calculated based on the outstanding common stock totaling 1,222,745,065 shares when the board of directors' meeting was held.

- 2. Should the Company encounter a change of share capital that changes the number of outstanding shares on a later date, the board of directors shall be fully authorized to make the necessary adjustments to the percentage of cash dividends allocated to shareholders.
- 3. The record date and issues related to the cash allocation of the capital reserves shall be determined by the board of directors after being authorized by the Annual General Meeting.

Discussion No. 3

Proposed by the Board of Directors

Motion: Motion of Initial public offering (IPO) of RMB common stock (A shares) of the Company's subsidiary King Long Technology (Suzhou) Ltd. and its application for listing on the Shanghai Stock Exchange/Shenzhen Stock Exchange.

Description:

- 1. Purpose of application for the subsidiary's listing and trading on overseas stock markets:
 - In an effort to respond to possible future changes in the global manufacturing supply chain, the Company's subsidiary, King Long Technology (Suzhou) Ltd. (hereinafter referred to as "King Long Technology"), progressively increases the Company's (Group's) global competitiveness by planning on localization to attract and motivate outstanding talented professionals. By doing so, King Long Technology intends to apply for its IPO of RMB common stock (A shares) to the Chinese competent authorities and to be listed and traded on the Shanghai Stock Exchange/Shenzhen Stock Exchange (referred to as the "present public offering".
- 2. Impacts on the Company's finance and business, and expected organizational structure and business adjustments and the impact of such adjustments on the Company:
 - (1) Financial impact:
 - i. If King Long Technology is successfully listed and traded on the Shanghai Stock Exchange/Shenzhen Stock Exchange, it will be able to quickly raise funds using multiple fundraising channels, optimizing the Company's (Group's) financial structure, expanding

- its industrial scale while enhancing the flexibility of financial deployment.
- ii. By publicly offering shares, funds can be raised locally and used to expand production lines as well as for investing in equipment to utilize production capacity and/or increase working capital to further enhance operational competitiveness.
- iii. Part of the shares of King Long Technology held by the Company will be indirectly disposed of prior to its application for listing in order to realize investment profit while reducing the long-term investment risk in China. The realized investment profit will be injected into the Company's capital positions, which will be utilized in a variety of aspects, contributing to the overall shareholders' rights and interests.
- iv. The listing of King Long Technology on the Shanghai Stock Exchange/Shenzhen Stock Exchange will enhance the asset size of the Company (Group) while also further increasing the capital strength of the Company (Group), pursuing maximum benefits for the shareholders.

(2) Impact on business:

 Through the public offering and listing, it is easier for King Long Technology to integrate into the local manufacturing chain and expand the Chinese market.
 By taking this approach, King Long Technology will also further boost its scale of production capacity,

- raising its level of competitiveness in the industry, and increasing its market share and profitability.
- ii. Listing shares in the local market helps the Company to improve its corporate image in order to attract first-class talent. Rewards including employees' stock rights will also be used to motivate employees to ensure the stability of core personnel. King Long Technology will also introduce strategic investors to help the Company expand its business development outlook.
- (3) Expected organizational structure and business adjustments and the impact of such adjustments on the Company:
 - i. In the future, the Company will continue to hold the equity and control of King Long Technology through the subsidiary, KYEC Microelectronics Co., Ltd. The organizational structures of King Long Technology and its subsidiaries remain the same, posing no impact on the Company as yet.
 - ii. The future businesses of King Long Technology and the Company will utilize our respective competitive niches to strengthen the competitiveness of the Group through professional division of labor, further increasing growth momentum.
- 3. Dispersal of the subsidiaries' shares, expected reduction in shareholding (or capital contribution) ratio, basis of the price, to whom the shares are transferred, or the specific parties to be approached:

In a bid to accommodate the operational development of King Long Technology, attract and retain the necessary professional personnel, introduce strategic investors as well as to meet the legal regulations of the public offering, it is intended to keep the Company's control over King Long Technology while holding no less than its 51% of shares indirectly through the subsidiary, KYEC Microelectronics Co., Ltd., and release of shares and/or waiver of subscription for cash capital increase of all or part of the shares of King Long Technology in one or more tranches as follows:

- (1) Subscribed cash capital increase waived prior to the application for listing:
 - i. Expected reduction of shareholding (or capital contribution) ratio: The total amount with method (2) does not exceed 39%.
 - ii. Price basis: Each registered capital subscription price shall not be lower than the net assets/registered capital of King Long Technology's most recent financial statements audited or reviewed by the CPA. All decisions associated with setting prices must be made in accordance with related laws and regulations applicable to the Company and its subsidiaries.
 - iii. To whom the shares are transferred, or the specific parties to be approached: King Long Technology, the Group's employees and strategic investors.
- (2) Shareholdings disposed of prior to the application for listing:

- i. Expected reduction of shareholding (or capital contribution) ratio: The total amount with method (1) does not exceed 39%.
- ii. Price basis: It is expected to be processed prior to King Long Technology becoming a stock corporation. Each registered capital disposal price shall not be lower than the net assets/registered capital of King Long Technology's most recent financial statements audited or reviewed by the CPA. All decisions associated with setting prices must be made in accordance with related laws and regulations applicable to the Company and its subsidiaries.
- iii. To whom the shares are transferred, or the specific parties to be approached: Strategic investors.
- (3) The present public offering (full waiver of subscription for cash capital increase):
 - i. Expected reduction of shareholding (or capital contribution) ratio: After King Long Technology has become a stock corporation, it is intended for King Long Technology to make an IPO of RMB common stock (A shares) in the Chinese market on the Shanghai Stock Exchange/Shenzhen Stock Exchange, with a par value of RMB 1 per share. According to the applicable regulations of the place of listing, the number of shares to be issued accounts for approximately 10% to 25% (tentatively, before the exercise of the overallotment option) of the total share capital of King Long Technology after present public

offering, and the consolidated shareholding ratio of the Company in King Long Technology after trading may not be lower than 51%. The ultimate issue number is proposed to be determined with the principal underwriter by the Company's board of directors authorized by the shareholders' meeting and/or the board of directors of King Long Technology or their authorized persons in accordance with the local laws and regulations, capital needs and communication with securities regulators as well as the market condition. However, for matters involving conflicts of interest of the Company or laws and regulations, the Company will submit such matter to the board of directors for a solution in accordance with applicable decision-making procedures.

- ii. Price basis: King Long Technology intends to apply for listing on the Shanghai Stock Exchange/Shenzhen Stock Exchange, which will be handled in accordance with applicable laws and regulations of the place of listing in a combination of an advisory placement to qualified institutional investors and a fixed-price issue to qualified public investors, or in other ways approved by the local securities agencies.
- iii. To whom the shares are transferred, or the specific parties to be approached: According to the applicable laws and regulations of the place of listing, the new shares in the present public offering will be issued to the inquiry objects, qualified natural persons, and

legal persons as well as other investors who meet criteria set out by the China Securities Regulatory Commission. The Company and all subsidiaries will not take part in the subscription.

4. Whether it will affect the Company's continuous listing on the Taiwan Stock Exchange:

The application for listing of King Long Technology on the Shanghai Stock Exchange/Shenzhen Stock Exchange is handled in accordance with local laws and regulations. However, the Company still has control over King Long Technology, and the interests of the Company's shareholders will be fully protected. It does not affect the Company's continuous listing on the Taiwan Stock Exchange.

5. Other explanation:

- (1) Taking into account long-term development, King-Long Technology intends to apply for IPO and listing (A shares) with the Chinese competent authorities. However, the application is still pending for submission, posing uncertainty and unpredictability regarding the timing of the submission of the application and how long the application may take.
- (2) According to the relevant Chinese laws and regulations and relevant requirements of the China Securities Regulatory Commission, shareholders that directly or indirectly (including the Company) control King Long Technology shall avoid horizontal competition. Given the consideration that the listing of King Long Technology may increase the overall value and reputation of the Company (Group), which

also helps expand the Chinese and global markets, bringing positive benefits to the Company (Group), the Company evaluated and agreed to the requirements of applicable Chinese laws and regulations, as well as the requirements made by the China Securities Regulatory Commission and entered into the "Avoidance of Horizontal Competition" agreement with King Long Technology. As the Company and King Long Technology have a controlling shareholding relationship, and have agreed to avoid horizontal competition, the Fair Trade Act shall not be violated.

The application for the present public offering may go ahead with approval of the shareholders' meeting. Upon approval of the shareholders' meeting, in order to meet the requirements of the amount of work to be put into the IPO of RMB common stock (A shares) on the Shanghai Stock Exchange/Shenzhen Stock Exchange, it is intended to request the shareholders' meeting to authorize the board of directors or their authorized persons, and/or authorize the board of directors of the subsidiary, King Long Technology or its authorized persons to make adjustments according to the implementation status of the listing plan, opinions associated with governmental authorities, the laws and regulations in both Taiwan and the place of listing, market conditions, or the actual application situation. These authorized persons will be fully responsible for handling matters related to the present public offering, including but not limited to the appointment of professional advisors, the determination of the conditions of the issuance, the time of the issuance, the number of issues, the objects of the issuance, the method of the issuance, the pricing method, the issue price (including the price range and the final price), the base date for the issuance, the strategic placement of shares (including the ratio of placement of shares and the placement objects, etc.), overallotment matters, the use of raised funds, the ratio of the number of online and offline placements, the change of the place of listing, the exchange and the listing segment, amending and signing of the agreement to avoid horizontal competition, the provision of the commitment letter, the confirmation letter and related listing application documents as well as handling all matters relating to the present public offering. However, for matters involving conflicts of interest of the Company or laws and regulations, the Company will submit such matter to the board of directors for a solution in accordance with applicable decision-making procedures.

Extraordinary Motions

Meeting Adjourned

(Annex 1)

King Yuan Electronics Co., Ltd. Business Report

Business Plan Implementation Results

- I. The consolidated net revenue was NT\$28.96 billion in 2020, which grew by 13.4% from 2019. Gross margin reached 27.5%, relatively similar to the gross margin in 2019. After-tax earnings per share was calculated at NT\$2.97, up 19.3% from 2019.
- At the beginning of the year, due to the COVID-19 pandemic outbreak and the restrictive II. order further announced by the U.S. government on the technologies of China, the global economic growth was in decline. Nevertheless, for the semiconductor manufacturing industry, under the positive impacts of the work from home, home economy and customers' increased orders to maintain sufficient stocks and to ensure continuous supply without being affected by the long lead time for semiconductor supply chain, along with the customers' accelerated planning in the 5G environmental application products and digital technologies, all such factors have resulted in significant increase of market demands. Accordingly, in the fourth quarter, the semiconductor industry faced the situation of demand oversupply and, unlike previous low seasons, achieved positive outcomes overall. Under positive impacts, the Company has also been able to re-allocate its production capacity to other customers from previous important customers that cannot continue to place orders due to the restrictive order issued by the U.S. government, thereby allowing the Company to recover profit swiftly along with a promising outlook for future growth in the next year.
- III. During the first half of last year, as the Chinese customers demanded a faster expansion of the Suzhou Branch, China, for greater production capacity and as several IDM customers were affected by the overseas pandemic along with the adjustment of the supply chain, the Company decided to swiftly transfer a portion of the testing equipment to the parent company in Taiwan for production. In the third quarter of last year, the Chinese customers decided to suspend the production due to the technology restrictive order issued by the U.S. government, the domestic and overseas idle production capacity required re-allocation. In the following fourth quarter, major customers in Taiwan, unexpectedly, increased the production capacity demands for all products significantly. For the first and second half of the year, with regard to the large scale of production capacity adjustment and construction, human resources, training, customer product cross-certifications, etc., for plants in both Taiwan and Suzhou China, the Company demonstrated exceptional service commitment in collaboration and cooperation with all customers in a short period of time and also achieved remarkable flexibility and efficiency of factory operation. Furthermore, the Company also successfully maintained business growth for the busy and challenging year.
- IV. In recent years, the company has gradually implemented the ESG "Environmental Sustainability," "Social Engagement," "Corporate Governance" and "Corporate

Commitment" in response to corporate sustainability issues and has been audited by various professional certification bodies on a regular basis. With regard to the ESG report of the Company in 2020, the risk has been reduced from 2019, and the Company will continue to exert effort in the corporate sustainability related aspects in 2021, thereby achieving improvement year after year.

Financial income and profit analysis

As the powerful always lead in the global semiconductor industry, the revenue of the Company's top ten customers accounted for more than 60% of total sales in recent years, with an upside growth potential. Therefore, the Company's operating working capital has also expanded alongside rising customer needs for capacity expansion and increasing corporate scale.

Regarding the Company's financial status and profitability in 2020, the debt ratio is relatively similar to that in 2019. Long-term funds to fixed assets increased slightly. However, as the customers and production lines of the Company are relatively distributed and the profit earning growth is stable, the cost for obtaining domestic funds is quite reasonable, and the Company has a large cash position, good credit and sound financial structure with its use of financial leverage. The current ratio and quick ratio have been higher than those in 2019, and the solvency of the Company is strong. In terms of profitability, the return on assets, return on equity, net profit margin, and after-tax earnings per share are all higher compared to those in 2019. The financial ratios are as follows:

	2020	2019
Ratio of liabilities to assets (%)	52.17	52.43
Long-term funds to fixed assets (%)	131.02	125.03
Current ratio (%)	192.36	175.81
Quick ratio (%)	174.60	158.68
Return on assets (%)	6.77	6.44
Return on equity (%)	13.10	11.99
Net profit margin (%)	12.56	11.91
After-tax earnings per share (NTD)	2.97	2.49

R&D status

With regard to development of the global semiconductor industry, as the technology advances, the nanomanufacturing process continues to move and the advanced packaging also heads toward the direction of wafer grade, 3D and heterogenous integration, thereby significantly increasing the complexity of integrated circuits, such as the products of HPC, SoC, SiP and AiP. In addition, to cope with the diverse fields of use in the application aspect, such as auto parts, optical sensor, MEMS, high radio frequency, biological, 5G integrated chips,

chips for high/low temperature and chips for high pressure environment, the testing capability in the process of semiconductor manufacturing also becomes more important.

The R&D center of the Company is dedicated in the testing technologies, testing methods, testing quality, problem-solving for testing and testing platform output with extensive efforts. In addition, the Company also assists customers to reduce testing cost, and provides sufficient and flexible production capacity with great performance, thereby achieving outstanding outcome. Over the past years, the Company has self-developed more than one thousand testing units, more than four hundred self-developed burn-in ovens and seven main product lines of self-developed testing platforms. In addition, the Company also continues to engage in extensive own research and development of testing platform interfaces, testing software development, testing cards, testing carriers, handlers and key component parts, etc., and brings all designs and developments into production.

For future research and development, the Company will continue to accelerate the implementation according to the plans updated annually by the R&D Center. With regard to the high-resolution image sensor elements and the capability of high quantities of simultaneous testing units, high power and high voltage burn-in oven improvement, testing channel numbers of self-developed E-series of testing platforms, precision of tester power supply (DPS), solution to ultra-high current thermal effect, and the development of MEMS testing equipment for gyroscope, accelerator, tire gauge, flow meter and magnetometer, hygrometer, etc., the Company will continue to maintain the unique competitive advantages in the integrated circuit testing field and excel further.

Current business plan overview

- I. Carefully select numerous order opportunities in the market, establish revenue and profit earning goals to achieve new highs.
- II. Further improve all indicators of the operation management of the Company and achieve indicators in practice.
- III. Continuously increase machine utilization rate of all testing platform lines, and increase output. In addition, continuously improve the average production value of all production equipment.
- IV. Control capital expenditure and investment benefit, thereby increasing the return on equipment of shareholders.
- V. Achieve further breakthrough in self-developed equipment and research and development capability, thereby ensuring the long-term leading competitive advantages.
- VI. To cope with the impacts of technology, politics and trade war between the U.S. and China on the global supply chain, the Company aims to gradually adjust the business plan of the parent company in Taiwan and the subsidiary in China.

Future development strategy

The Company will focus on the role of a professional service provider in the semiconductor integrated circuit manufacturing process, and continues to seek innovative business models in the semiconductor OEM field. Accordingly, in recent years, the

development strategy of the Company generally remains the same and continues to head toward the following aspects and directions.

- I. Focus on the fundamental core management indicators of the manufacturing supply chain in order to improve more disciplined and detailed management. With the expansion of product scale, increase the machine utilization rate of all testing platforms.
- II. Strengthen the Company's unique differentiated service capabilities, and reinvest profits in R&D and innovation in order to challenge competitors in the market.
- III. Focus on the aspects of customer, profit and growth for business operation, ensure customer satisfaction and continue to create profitability and pursue healthy growth.
- IV. Properly maintain existing outstanding customers, increase market share in the outsourcing market, develop new potential customers, and seek IDM outsourcing collaborative orders to achieve joint growth.
- V. Cope with the conflict between the two nations of the U.S. and China and the issues related to possible changes of the supply chain, evaluate and gradually adjust the planning of the Company's supply chain in Taiwan and China, thereby responding and mitigating possible changes of the environment in the future.
- VI. With an open attitude, we cooperate with semiconductor business operators in strategic cooperation or joint development, so that the Company can quickly gain its position as one of the top semiconductor packaging and testing industries in the world.

The effect of external competition, the legal environment, and the overall business environment

With regard to the global semiconductor industry revenue status, according to the statistics announced on January 14, 2021 by Gartner, the 2020 revenue forecast for the semiconductor industry was US\$ 449.8 billion, a growth of 7.3% from 2019. Another organization, World Semiconductor Trade Statistics (WSTS) estimated the growth to be 5.1%. For the outlook of 2021, WSTS estimates that the production value is expected to increase by 8.4%, and the other research and survey institutions, IC Insights and Gartner, also expect that the annual increase will be above 10%. The main factors driving such growth are related to the demands for various products, including 5G smartphone components, 5G network communication components, IoT components, CIS, RF components, WiFi6, artificial intelligence learning and data center server (HPC), edge computers, storage memory components, MEMS components, auto electronics/assistance driving system, etc.

With regard to the global economic growth, according to the announcement made by International Monetary Fund (IMF) on January 26, 2021, the global economy had declined to 3.5% in 2020. However, the forecast for 2021 is expected to show a growth of 5.5%, and the economic growth in China is expected to still reach 8.1%, a profound growth among other countries. Due to the impact of the COVID-19 pandemic and the policy of the U.S. first adopted last year, the global economy had shown the greatest decline since the Great Depression in 1929. The economy in Europe is currently in decline for the second time. For this year, the global economy at its down time is expected to recover after the pandemic. Despite

the present capital market performance having indicated signs of economic recovery, the strength of such recovery still needs to be further assessed. The economic output and demand are expected to continue to remain at a level lower than normal for a certain period of time, and the global economic recovery may still be unstable and unbalanced.

In terms of the external competition, the upstream and downstream of the semiconductor industry have been continuously split and merged in the past decade. Presently, a lot of IC product design companies and various terminal hardware product brand companies are now directed by a few giants in the industry. As for semiconductor equipment and materials, the number of participating manufacturers in the market is decreasing significantly. In the field of IC manufacturing and professional OEM, the companies are centralized in Taiwan. In terms of the revenue, Taiwan is ranked No. 2 in the global IC design, No. 1 in global wafer manufacturing and No. 1 in global wafer packaging and testing; therefore, Taiwan semiconductor OEM manufacturing has become the sector essential to world giants with respect to geopolitics. However, with the fast technology integration and development, the growth of the semiconductor testing industry also faces the competition and challenge of the new era. For instance, in terms of the supply chain, based on the consideration of globalization, a lot of countries are planning to establish and expand their local semiconductor supply chain. As for the sales of the Company, the testing orders will face greater competition with wafer manufacturers. For IC products, including extremely small or large chips, integrated chips, systems chips, etc., the testing technologies will focus on how to achieve the testing functions for such products. Regarding the factory production capacity and investment management aspect, the Company will face the challenges of determination on whether the customer demand visibility is short term and judgement on how to flexibly adjust and allocate production capacity when demands from various sectors suddenly increase at the same time in order to handle such great market fluctuation. In terms of the human resource aspect, the Company will also need to compete for talents with the wafer manufacturers. Furthermore, due to the merger among customers, there is also a risk of change of purchase system. In view of the above, the world depends heavily on the semiconductor manufacturing capacity in Taiwan, and the large-scale manufacturers will continue to remain the leaders. Accordingly, the testing industry needs to continue to invest cooperatively such that capital expenditure and post-investment management will also be challenges to the Company.

With regard to the legal and overall business environment aspect, in recent years, due to the restrictive orders on the Chinese technology industry announced by the U.S. government, the future development of the semiconductor industry in China needs to be further monitored. The global antitrust law against the merger or monopoly (oligopoly) market by giant semiconductor enterprises will continue; however, there are no major changes in the laws and regulations in the cross-strait relation between Taiwan and China. At the beginning of 2021, in terms of the overall economy, the global economy has indicated gradual recovery from the bottom. The U.S. is expected to return to the multilateral economic and trade cooperation in order to promote economic growth. To achieve economic recovery, governments of all countries are also

expanding their financial deficits and currency supply, and the modern monetary theory is widely adopted. For this year, the overall economy will still be under the environment of low inflation, low interest rates, low economic growth, relatively high unemployment rate, high debt, loose monetary policy and expansionary fiscal policy.

Looking forward to the new year, the two giants of the U.S. and China will continue to compete in the fields of politics, foreign affairs, military and technology. However, in terms of the economy and trade field, it is expected to reach a certain level of relaxation and coopetition. After vaccination, mitigation of the pandemic and end of financial aids, real damages to enterprises may emerge; therefore, the speed of economic recovery cannot be determined easily at the present time but may become more apparent at the end of the year. Nevertheless, presently, it can be certain that the demands for the semiconductor industry have started to indicate significant increase in the sectors of high performance computing (HPC), artificial intelligence (AI), data center, 5th generation (5G) communication mobile phones and network communication equipment connectors, artificial intelligence of things (AIoT), auto electronics (ADAS), etc. For the post-pandemic era, as the corporate operation and personal living and consumer style are transforming to become more reliable to digital technology, the global manufacturing demand for the semiconductor industry will certainly continue to remain strong. The situation of tight production capacity for the semiconductor packaging and testing industry still cannot be determined precisely for the time being and may become more apparent at the fourth quarter of the year. The Company is optimistic on great business opportunities from numerous customers and will continue to perform investment with due care. In addition, the Company will rigorously handle the challenges in the new stage of the semiconductor testing industry, and continue to contribute efforts in achieving new records in the Company's revenue and earnings.

English Translation of a Report Originally Issued in Chinese

Independent Auditors' Report

To the Board of Directors and Shareholders of King Yuan Electronics Co., Ltd.

Opinion

We have audited the accompany parent company only balance sheets of King Yuan Electronics Co., Ltd. as of December 31, 2020 and 2019, and the related parent company only statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2020 and 2019, and notes to the parent company only financial statements, including the summary of significant accounting policies (together "the financial statements").

In our opinion, the parent company only financial statements referred to above present fairly, in all material respects, the financial position of King Yuan Electronics Co., Ltd. as of December 31, 2020 and 2019, and its financial performance and cash flows for the years ended December 31, 2020 and 2019, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of King Yuan Electronics Co., Ltd. in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2020 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition

King Yuan Electronics Co., Ltd. recognized NT\$23,344,758 thousand as net sales. Their main activities are providing testing and assembly services that represented 84%, or NT\$19,666,024 thousand in the amount, of the net operating revenues.

Since the primary activities of King Yuan Electronics Co., Ltd. are providing testing and assembly services, and the services comprise various wafers/integrated circuits testing and assembly processing and rental of machinery, timing of revenue recognition may vary due to varied nature of revenues that increases the complexity of the revenue recognition. Therefore, we determined the matter to be a key audit matter.

Our audit procedures include (but are not limited to) assessing the appropriateness of the accounting policy for revenue recognition; evaluating and testing the effectiveness of internal control relating to the timing of revenue recognition, analyzing the reasonableness of gross profit margin by products, performing cutoff testing for a period before and after the balance sheet date on a sampling basis, performing test of details on selected samples, reviewing the significant terms of sales agreements and examining relevant delivery documents, and reviewing the selected samples of the quantity, specification, period and relevant documents of machinery services.

We also considered the appropriateness of the disclosures of sales. Please refer to Note 4 and Note 6 in notes to the financial statements.

Responsibilities of Management and Those Charged with Governance for the Parent Company Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards, International Accounting Standards, Interpretations developed by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee as endorsed by Financial Supervisory Commission of the Republic of China and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the ability to continue as a going concern of King Yuan Electronics Co., Ltd. disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate King Yuan Electronics Co., Ltd. or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of King Yuan Electronics Co., Ltd.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of King Yuan Electronics Co., Ltd.

- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of King Yuan Electronics Co., Ltd. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause King Yuan Electronics Co., Ltd. to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the accompanying notes, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the parent company only financial information of the entities or business activities within King Yuan Electronics Co., Ltd. to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2020 parent company only financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

English Translation of a Report Originally Issued in Chinese

Independent Auditors' Report

To the Board of Directors and Shareholders of King Yuan Electronics Co., Ltd.

Opinion

We have audited the accompanying consolidated balance sheets of King Yuan Electronics Co., Ltd. and its subsidiaries as of December 31, 2020 and 2019, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2020 and 2019, and notes to the consolidated financial statements, including the summary of significant accounting policies (together "the consolidated financial statements").

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of King Yuan Electronics Co., Ltd. and its subsidiaries as of December 31, 2020 and 2019, and their consolidated financial performance and cash flows for the years ended December 31, 2020 and 2019, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards, International Accounting Standards, Interpretations developed by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee as endorsed and became effectively by Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of King Yuan Electronics Co., Ltd. and its subsidiaries in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2020 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition

King Yuan Electronics Co., Ltd. and its subsidiaries recognized NT\$28,959,304 thousand as net sales. Their main activities are providing testing and assembly services that represented 87%, or NT\$25,066,252 thousand in the amount, of the net operating revenues.

Since the primary activities of King Yuan Electronics Co., Ltd. and its subsidiaries are providing testing and assembly services, and the services comprise various wafers/integrated circuits testing and assembly processing and rental of machinery, timing of revenue recognition may vary due to varied nature of revenues that increases the complexity of the revenue recognition. Therefore, we determined the matter to be a key audit matter.

Our audit procedures include (but are not limited to) assessing the appropriateness of the accounting policy for revenue recognition; evaluating and testing the effectiveness of internal control relating to the timing of revenue recognition, analyzing the reasonableness of gross profit margin by products, performing cutoff testing for a period before and after the balance sheet date on a sampling basis, performing test of details on selected samples, reviewing the significant terms of sales agreements and examining relevant delivery documents, and reviewing the selected samples of the quantity, specification, period and relevant documents of machinery services.

We also considered the appropriateness of the disclosures of sales. Please refer to Note 4 and Note 6 in notes to the consolidated financial statements.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards, International Accounting Standards, Interpretations developed by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee as endorsed by Financial Supervisory Commission of the Republic of China and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the ability to continue as a going concern of King Yuan Electronics Co., Ltd. and its subsidiaries, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate King Yuan Electronics Co., Ltd. and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of King Yuan Electronics Co., Ltd. and its subsidiaries.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of King Yuan Electronics Co., Ltd. and its subsidiaries.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of King Yuan Electronics Co., Ltd. and its subsidiaries. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause King Yuan Electronics Co., Ltd. and its subsidiaries to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the accompanying notes, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within King Yuan Electronics Co., Ltd. and its subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2020 consolidated financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Others

We have audited and expressed an unqualified opinion on the parent company only financial statements of King Yuan Electronics Co., Ltd. as of and for the years ended December 31, 2020 and 2019.

(Appendix 1)

King Yuan Electronics Co., Ltd. Rules of Procedure for Shareholders' Meetings

- Article 1: The rules of procedures for the Company's shareholders' meeting shall be as provided in these Rules.
- Article 2: Shareholders (or representatives) shall wear an attendance card when attending the meeting and submit a signature card as proof of attendance. The number of shares is calculated based on the number of shares shown in the signed card.
- Article 3: The Chair calls for the meeting to begin when the total number of shares represented reaches the authorized amount. Whereas if the authorized amount is not reached at the meeting time, the Chair may postpone the meeting twice (first postponement: 20 minutes; second postponement: 10 minutes). If the number of shareholders present does not constitute the quorum, but those present represent one-third or more of the total number of issued shares, a tentative resolution may be passed by a majority of those present in accordance with Article 175 of the Company Act. Prior to conducting a tentative resolution of the preceding paragraph, if the total number of shares of the shareholders present reaches the authorized amount, the meeting will officially be called to start, and the tentative resolution will be submitted to the meeting.
- Article 4: A shareholder wishing to speak in a shareholders' meeting shall first fill out a slip, specifying number of attendance and his/her name, and the Chair shall determine his/her order of giving a speech.
- Article 5: Shareholders' meetings shall be conducted according to the procedures stipulated in the agenda and its agenda shall be formulated based on the following:
 - 1. Annual General Meeting: formulated by the board of directors.
 - 2. Special shareholders' meetings: formulated by the convener.

The Chair shall not adjourn a meeting without resolution adopted by shareholders if the motions (including extraordinary motions) covered in the proceedings so arranged in the above two paragraphs have not been resolved. After the close of the said meeting, shareholders shall not elect another Chair to hold another meeting at the same place or at any other place.

Article 6: A shareholder shall not speak more than two times in one motion, unless he/she has obtained the prior consent from the Chair, and each speech shall not exceed 5 minutes. A corporate shareholder being entrusted to attend a shareholders' meeting may designate only one representative to represent it in the meeting. If a corporate shareholder designates two or more representatives to represent it at the shareholders'

meeting, only one of the representatives may speak on any one motion.

- Article 7: Except for the motions included in the agenda, other motions such as the motion of amendments or motions of alternatives proposed by shareholders shall be agreed upon by other shareholders, and the number of shares held by the shareholders who propose the motion, along with a representative among those who agree, shall reach one percent of the total number of issued common stocks.
- Article 8: If not a motion, it will not be discussed or resolved. When discussing a motion, it shall be discussed according to orders in the agenda. If a violation of procedures is found or the topic is not within the motion, the Chair may immediately stop the speaker. The Chair may announce the end of discussion at an appropriate time, and if necessary, may end the discussion.
- Article 9: For the discussion topics that have been terminated or stopped, the Chair shall immediately submit a voting. The voting rights of each shareholder shall be calculated in accordance with the Company's Articles of Incorporation.
- Article 10: Unless otherwise specifically provided for in the Company Act, resolutions shall be adopted by a majority vote at a meeting attended by the shareholders. Those who express no objection when the Chair requires will be deemed to be approved, which serves the same effect as voting. Where there are any objections, the Chair may use a roll-call against the resolution which will be calculated based on the number of shares held by the shareholders' who have expressed an objection or waived his/her voting power. After the calculation, if the number of shares does not impact the approval of the motion, the motion is deemed to have passed, which serves the same effect as voting.
- Article 11: Where a representative is appointed by the shareholder to attend the shareholders' meeting, except for trust enterprises or stock agencies approved by the competent authority, when a person who acts as the proxy for two or more shareholders, the number of voting power represented by him/her shall not exceed 3% of the total number of voting shares of the company; otherwise, the portion of excessive voting power shall not be counted.
- Article 12: As the meeting is being processed, the Chair may announce a break at his/her discretion.
- Article 13: Matters for which these Rules make no provision shall be handled in accordance with the Articles of Incorporation, Company Act, and other applicable laws and regulations.
- Article 14: These Rules, and any amendments hereto, shall be implemented after approval by a shareholders' meeting.

(Appendix 2)

King Yuan Electronics Co., Ltd. The Articles of Incorporation

Chapter 1 General Provisions

- Article 1: The Company is organized by regulations of the Company Act and named King Yuan Electronics Co., Ltd. (KYEC)
- Article 2: The Company's business matters shall include:
 - I. Designing, manufacturing, testing, accessories, processing, packaging, trading of various integrated circuits (IC).
 - II. Different types of burn in equipment, and manufacturing, processing, and trading of its components.
 - III. As well as import/export trade of said products.
 - IV. We also act as an agent for the quotation, bidding and distribution of different products for Taiwanese and foreign manufacturers.
 - V. ZZ99999: All business items that are not prohibited or restricted by law, except those that are subject to special approval.
- Article 2-1: When the Company becomes a shareholder of limited liability in other companies, the total amount of its investments is not subject to Article 13 stipulated in the Company Act which states that other companies shall not exceed forty percent of the amount of its own paid-up capital.
- Article 2-2: The Company may provide guarantees to the external for business needs.
- Article 3: The Company shall have its head office in Hsinchu City, and when it is determined to be necessary, upon the resolution of the board of directors, branch offices may be established domestically or overseas.
- Article 4: Deleted.

Chapter 2: Shares

- Article 5: The total capital of the Company shall be NT\$15 billion, divided into 1.5 billion shares (including 30 million shares for employee stock option certificates) at a par value of NT\$10 per share, and issued at discrete times. The board of directors has been authorized to issue the shares in installment according to business needs.
- Article 5-1: Where the price of employee stock option certificates of the Company is lower than the Company's common share price closed on the date of issuance, the issuance of such employee stock option certificates shall only be made with the consents of attending shareholders representing more than two-thirds of the total voting rights in a shareholders' meeting attended by shareholders representing a majority of the total issued shares.

To transfer shares to employees at less than the average actual share repurchase price, the Company must have obtained the consent of at least two-thirds of the voting rights present at the most recent shareholders' meeting attended by shareholders representing a majority of total issued shares before the transfer of shares.

Article 6: Deleted.

Article 7: The share certificates of the Company shall be in registered form, signed or sealed by at least three directors and shall be certified for issuance of the share certificates. And combined to obtain large face-value shares.

The shares issued by the Company are exempted from printing any share certificate for the shares issued and shall register the issued shares with a centralized securities depository enterprise.

Article 8: Any change and transfer registration of shares shall be prohibited within sixty days prior to the ordinary shareholders' meeting, thirty days prior to the extraordinary shareholders' meeting, or five days prior to the record date for the distribution of dividends and bonuses or other interests by the Company.

Chapter 3 Shareholders' meeting

- Article 9: The shareholders' meeting is classified into two types of the ordinary shareholders' meeting and the extraordinary shareholders' meeting. The ordinary shareholders' meeting shall be convened once per year, and shall be convened by the board of directors according to the laws within six months after the close of each fiscal year. The extraordinary shareholders' meeting shall be convened whenever necessary according to laws.
- Article 10: Where a shareholder for any reasons cannot attend the shareholders' meeting in person, he/she/it may appoint a proxy to attend a shareholders' meeting on his/her/its behalf by executing a power of attorney printed by the Company stating therein the scope of power authorized to the proxy.
- Article 11: The Company's shareholders shall have one vote for each share, except for where the shares have no voting rights under Article 179 of the Company Act and the directors' pledges under Article 197-1, Paragraph 2 of the Company Act.
- Article 12: Unless otherwise specified in the Company Act, any resolution at a shareholders' meeting shall be adopted by a majority of the shareholders present, who are representing more than half of the total number of the Company's outstanding shares, and shall be executed based on the majority of the voting rights of attending shareholders.
- Article 12-1: The agenda of the Company's shareholders' meetings, except as otherwise provided by law, regulation, or the Articles of Incorporation, shall be as provided in the Rules of

Procedures for Shareholders' Meetings of the Company.

Chapter 4 Directors and Audit Committee

Article 13: The Committee shall be composed of the entire number of 7 to 11 directors and shall serve a 3-year term. The candidate nomination system is adopted and directors shall be selected from a candidate list by the shareholders' meeting and may be reelected to further terms. The Company shall take out liability insurance for the directors with respect to liabilities resulting from the performance of duties during their terms of office.

Among the number of directors of the preceding paragraph, there shall be at least 3 independent directors, and not less than one-fifth of the seats shall be held by directors. Regulations governing the professional qualifications, restrictions on shareholdings and concurrent positions held, assessment of independence, method of nomination, and other matters for compliance with respect to independent directors shall be in compliance with the relevant regulations set out by the securities competent authorities.

Article 13-1: The Company has set up an Audit Committee since the 12th Board which was composed of all independent directors.

The Audit Committee's members, term of office, powers and authorities, rules of procedure, and resources provided by the company to facilitate its exercise of powers shall be in accordance with the regulations stipulated in the Audit Committee Charter.

- Article 14: The board of directors shall be formed by directors. A Chairman shall be elected among the directors during a board meeting attended by more than two-thirds of directors and with the consents of more than half of all attending directors. In addition, a Vice Chairman may be elected from among the directors through the same method described above. The Chairman of the board of directors shall internally preside the shareholders' meeting and the meeting of the board of directors, and shall externally represent the Company.
- Article 15: In case where the Chairman is on leave or absent or cannot exercise his power and authority for any cause, the proxy thereof shall be handled according to the regulation of Article 208 of the Company Act.
- Article 15-1: Directors shall attend board meetings in person. A director unable to attend in person may appoint another director to attend the meeting by presenting a power or attorney in order to act as a proxy for attending the meeting on his/her/its behalf. The proxy described in the preceding paragraph shall be limited to accept the appointment of one director only.
- Article 15-2: The authorities of the board of directors are as follows:

- 1. Review of management policies and mid- to long-term development plans.
- 2. Review and ensure implementation of annual business plans.
- 3. Review of budget and final accounts.
- 4. Review plans of capital increase or decrease
- 5. Review proposals of earnings distribution or making up loss.
- 6. Review of important contracts.
- 7. Review of articles of incorporation or make amendments.
- 8. Review of the Company's organizational rules and important business rules.
- 9. Agreement on establishment, reorganization or cancellation of branches.
- 10. Review of major capital expenditure plans.
- 11. Appointment and discharge of managerial offers.
- 12. Implementation of the resolution by shareholders' meetings.
- 13. Review of matters proposed by managers.
- 14. Convention of shareholders' meeting and business report.
- 15. Other operations that shall be handled in compliance with the law.
- Article 16: For the remuneration of all directors, the board of directors is authorized to reach a resolution on such remuneration based on their participation level and value of contribution to the operation of the Company along with the consideration of the common standard adopted in the same industry.

Chapter 5 Managerial Officers

Article 17: The Company may appoint managers. The appointment, discharge and remuneration of the managerial officers shall comply with the provision of Article 29 of the Company Act and relevant laws and regulations.

Chapter 6 Accounting

- Article 18: At the end of each fiscal year of the Company, the board of directors shall prepare the reports and statements of 1. Business report, 2. Financial statement and 3. Proposal for distribution of surplus earnings or covering losses, for submission to the ordinary shareholder's meeting according to the law in order to request approval thereof.
- Article 19: Where there is a profit in the current year, the Company shall allocate 8%–10% of the profit as the remuneration to employees, and no more than 1% thereof as the remuneration to Directors. However, profits must first be taken to offset against cumulative losses if any.

Employees' compensation is distributed in the form of shares or in cash. Those entitled for shares or cash, must be the Company's employees.

"Profit sought for the current year" as referred in the first paragraph means current pre-tax benefit deducts the benefits before the distribution of compensation of employees and directors compensation.

The Company may, by a resolution adopted by a majority vote at a meeting of board of directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation and directors' compensation, and in addition thereto, a report of such distribution shall be submitted to the shareholders' meeting.

Article 20: From the profit earned by the Company as shown through the final account, if any, the sum to pay tax and make good previous loss, if any, shall be first set aside, and then 10% for legal reserve and then the sum for special reserve for provision or reversal to meet the Company's operating needs and as required by laws. The final balance, if any, added with unappropriated retained earnings accumulated in previous year(s), shall be duly distributed at the percentages as proposed by the board of directors and resolved in the shareholders' meeting.

The Company's dividend policy shall be conditioned by the investment environment, capital needs, domestic and international competition, and capital budgeting of the Company at the present moment and in the future. Shareholders' interest, balance of dividend payment and long-term financial planning of the Company shall also be taken into consideration by the board of directors when the board proposes the motion for allocation of stock dividends annually as required by law and presents the same before the general meeting of shareholders for ratification. The Company is currently in the growth stage of its life cycle and is still in need of capital for expansion and investment in the future. The cash dividend allocated to shareholders in the current year shall be no less than 20% of the total dividends to the shareholders for the year.

Chapter 7 Supplemental Provisions

Article 21: Any matter not specified in these Articles of Incorporation of the Company shall be handled in accordance with the regulations of the Company Act.

Article 21-1: The Company's various rules and procedures shall be further established separately.

Article 22: These Articles were established on May 2, 1987.

First amendment was made on May 20, 1987.

Second amendment was made on November 22, 1988

Third amendment was made on December 12, 1988

4th amendment was made on February 5, 1990

(Appendix 3)

King Yuan Electronics Co., Ltd. Code of Ethical Conduct

- Article 1: In order to guide the directors and managers of the Company to act in line with the ethical standards and enable the Company's stakeholders to better understand the Company's ethical standards, the Company has established this "Code of Ethical Conduct" (hereinafter referred to as the "Code").
- Article 2: The directors and managers of the Company shall include the president and any person at an equivalent level, the vice presidents and persons at an equivalent level, the assistant vice presidents and persons at an equivalent level, the chief financial and accounting officers, and other persons authorized to manage affairs and give signatures for the Company.
- Article 3: In performing their duties, the directors and managers of the Company shall adhere to the principle of integrity and engage in activities that meet professional standards.
- Article 4: The directors or managers of the Company shall perform their official duties in an objective and efficient manner to prevent the involvement of the interest or the acquisition of improper benefits by any person or his/her spouse, parent or child or any of his/her relatives within the second degree of kinship.

The Company shall comply with its "Procedures for Loaning of Funds to Others," "Procedures for Endorsements and Guarantees" and "Procedures for Acquisition or Disposal of Assets" in the loaning of funds, provision of guarantees, transactions of material assets or purchases (or sales) between it and the affiliates in which the aforesaid persons serve.

- Article 5: The Company shall prevent its directors or managers from engaging in any of the following activities:
 - I. Seeking any opportunity to gain personal benefits by using the Company's property or information or taking advantage of their positions;
 - II. Obtaining personal benefits by using the Company's property or information or taking advantage of their positions;
 - III. Competing with the Company. When the Company has an opportunity for profit, its directors or managers have the responsibility to increase the proper and lawful benefits that may be acquired by the Company.
- Article 6: The directors or managers of the Company shall be obliged to maintain the confidentiality of all information, technical information and intellectual property rights of the Company or its customers in purchases (or sales), except where disclosure thereof is authorized or required by law. Confidential information shall include any undisclosed

- information that, if used by a competitor or disclosed, may cause damage to the Company or its customers.
- Article 7: The directors or managers of the Company shall treat its customers in purchases (or sales), competitors and employees fairly, and may not obtain improper benefits through manipulation, nondisclosure or misuse of any information learned by virtue of their positions, misrepresentation of important matters, or other unfair trading practices.
- Article 8: The directors or managers of the Company have the responsibility to protect company assets and ensure that they can be effectively and lawfully used for official duties. Any theft, negligence or waste of such assets will have a direct impact on the Company's profitability.
- Article 9: The directors or managers of the Company shall be in strict compliance with the Securities and Exchange Act and other applicable laws and regulations.
- Article 10: The Company shall promote awareness of ethics and encourage employees to report to a manager, the chief internal auditor or any other appropriate officer upon suspicion or discovery of any activity in violation of a law or regulation or the Code. To encourage employees to report illegal conduct, the Company shall establish a concrete whistleblowing system and shall make employees aware that the Company will use its best efforts to ensure the safety of the reporting persons and protect them from reprisals.
- Article 11: When any director or manager of the Company violates the Code, the Company shall hold the violator accountable or take appropriate legal measures based on the circumstances of violation, and shall without delay disclose on the Market Observation Post System (MOPS) the date of violation of the Code by the violator, reasons for violation, the provisions of the Code violated and the follow-up actions taken.
- Article 12: When any director of the Company acts in violation of the Code, any other director may request the Audit Committee to conduct an investigation. If the violator is a member of the Audit Committee, the other members may be requested to conduct an investigation. Where any manager of the Company has received a penalty due to violation of the Code, he/she may file an appeal in accordance with the "Regulations for Employee Appeals."
- Article 13: Where any director or manager of the Company is exempt from compliance with the Code, upon the adoption of a resolution by the board of directors, disclosure shall be made without delay on the MOPS of information including the date on which the board of directors approves such exemption, the objections or reservations of independent directors, the period of and reasons for application of such exemption and the standards applicable to such exemption, so that shareholders may evaluate the appropriateness of the resolution adopted by the board of directors to forestall any arbitrary or dubious

- exemption from compliance with the Code and to ensure appropriate mechanisms for controlling any circumstance of such exemption for the purpose of protecting the Company.
- Article 14: The Code and its amendments shall be disclosed on the Company's website, in its annual reports and prospectuses and on the MOPS.
- Article 15: The Code or any amendment to it shall enter into force upon its adoption by the board of directors, and shall be submitted to the shareholders' meeting.
